

THE GREEN BUSINESS FUND FROM THE CARBON TRUST

WHAT IS **IMPLEMENTATION ADVICE** AND HOW CAN SMES IN ENGLAND, WALES AND SCOTLAND BENEFIT FROM IT?

Implementation advice is one of the support services offered by the Carbon Trust Green Business Fund at no cost to businesses with up to 1000 employees.

It is to help businesses in England, Scotland and Wales to take any recommendations that have been made by a reputable supplier or consultant, and turn these recommendations into a reality for your business.

So if you have had an energy survey that identifies ways to make energy savings in your business by investing in certain equipment, be it new lighting, upgraded heating, or better air conditioning, Implementation Advice will help you find reputable suppliers who will install appropriately specified equipment for your business needs.

greenbusiness@carbontrust.com

Implementation Advice is:

- Designed to support businesses with a specific energy saving project in mind (e.g. lighting)
- Provides up to 5 days of funded bespoke support from a Carbon Trust consultant – at no cost to your business
- Available for companies with up to 1,000 employees in England, Scotland or Wales

Support covers:

- Impartial design and specification of a project
- Development of Invitation to Tender documents so supplier bids can be structured and compared fairly in a competitive tender process
- Finding and shortlisting reliable suppliers
- Independent review of supplier proposals and quotes
- Advice and support throughout the buying process
- Peace of mind for your business that the equipment you are buying is fit for purpose and right for your needs

Implementation advice can also act as a gateway for your business to receive up to £5,000 capital contribution or up to 15% of the purchase cost of the energy saving equipment.
